Data sheet 6GK5116-0BA00-2AB2

SCALANCE XB116 unmanaged IE switch, 16x 10/100 Mbit/s RJ45 ports; for setting up small star and line topologies; LED diagnostics, IP20, Redundant power supply, 24 V AC/DC Manual available as a download .

| was duet time decimation | |
|--|----------------|
| product type designation | OOAL ANDE |
| product brand name | SCALANCE |
| product type designation | XB116 |
| transfer rate | |
| transfer rate | 10, 100 Mbit/s |
| interfaces / for communication / integrated | |
| number of electrical connections | |
| for network components or terminal equipment | 16; RJ45 |
| interfaces / other | |
| number of electrical connections | |
| • for power supply | 1 |
| supply voltage, current consumption, power loss | |
| product component / connection for redundant voltage supply | Yes |
| type of voltage / 1 / of the supply voltage | DC |
| supply voltage / 1 / rated value | 24 V |
| power loss [W] / 1 / rated value | 4.8 W |
| supply voltage / 1 / rated value | 19.2 28.8 V |
| consumed current / 1 / maximum | 0.2 A |
| product component / 1 / fusing at power supply input | Yes |
| fuse protection type / 1 / at input for supply voltage | 0.6 A / 60 V |
| type of voltage / 2 / of the supply voltage | AC |
| supply voltage / 2 / rated value | 19.2 28.8 V |
| ambient conditions | |
| ambient temperature | |
| during operation | 0 60 °C |
| during storage | -40 +80 °C |
| during transport | -40 +80 °C |
| relative humidity | |
| at 25 °C / without condensation / during operation / maximum | 95 % |
| protection class IP | IP20 |
| design, dimensions and weights | |
| design | compact |
| width | 80 mm |
| height | 117 mm |
| depth | 109 mm |
| net weight | 0.375 kg |
| fastening method | |
| 35 mm DIN-rail mounting | Yes |
| wall mounting | No |

| • \$7-300 rail mounting | No |

that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
